**STONNINGTON**

# **PROCEDURES & PROTOCOL MANUAL**

## **Part 1 – Preliminary**

A term used in this manual has the meaning given to it under the Stonnington Local Law 2018.

## **Part 2 – Administration**

The Form of Notice to Comply is set out in Schedule 1.

## **Part 6 – Vehicle Crossings**

### Introduction

The removal, maintenance and construction of a vehicle crossing is regulated by the *Road Management Act 2004 (RMA)*. However, a 'consent' under the RMA may be evidenced by a Permit issued under the Local Law.

### Applications

An application for the removal, maintenance or construction of a vehicle crossing will be considered in accordance with the Vehicle Crossing Policy and the following:

- (a) whether an existing vehicle crossing is already in existence;
- (b) the effect of the proposed vehicle crossing on the amenity of the neighbourhood;
- (c) the impact on Council assets including trees, tree roots and the ongoing health of the tree;
- (d) the impact of the proposed vehicle crossing on traffic, parking and community safety;
- (e) any other relevant matter.

### Determination by Council

An application for the removal, maintenance or construction of a vehicle crossing may be called in by Council and determined at the next available Council meeting.

## **Part 7 – Protection of Council Land**

### Clause 115 – Asset Protection Permits

Asset Protection Permit Bonds are determined by Council from time to time.

Where, in the opinion of an Authorised Officer, an existing driveway crossing, footpath, road, street tree, kerb or other part of Council's asset may be damaged, the person responsible for the building work must pay to Council a bond, or provide a bank guarantee or other security acceptable to Council.

The amount of the bond, bank guarantee or other security to be provided will be determined during the assessment of the application and will be proportionate to the likely cost of repairing any damage to Council assets. The amount (if a bond) or bank guarantee must be provided to Council before the permit is issued.

If, after issuing a permit, with or without the requirement of a bond, guarantee or other security, further information is received and an Authorised Officer is of the opinion that damage or further damage may occur, the person responsible must pay to Council a bond, bank guarantee or other security or further bond, bank guarantee or other security.

The security will be refunded after the final inspection of Council assets if there has not been any damage to Council's assets as a result of the building works. If damage to Council's assets has occurred, the security will be retained by Council to offset the cost of repairing any damage.

## **Part 9 – Council Reserves**

### **Restrictions**

A person may consume Liquor in a Council Reserve:

- (a) during daylight hours; and
- (b) as part of a picnic, barbeque or otherwise in accordance with a Permit.

A person may consume Liquor in a Council Reserve:

- (a) during an event which has been prescribed by Council (from time to time) as an event for which Liquor can be consumed.

A list of Council Reserves is listed at Schedule 3.

## **Part 14 - Tree Protection**

### **Significant Trees**

In assessing an application for a permit in relation to significant tree an Authorised Officer must take into consideration the following where relevant:

- (a) the condition of the tree, i.e. health and structural condition;
- (b) whether the proposed action is to be undertaken for reasons of health or safety;
- (c) whether the tree is causing significant property damage;
- (d) the effect of the proposed action on the amenity of the neighbourhood; and
- (e) any other matter relevant to the circumstances of the application which is drawn to the Council's attention or of which the Council is aware.

## **Part 16 - Sanitation**

### **Waste Collection**

Unless otherwise authorised by Council, the occupier of land from which waste is to be collected must:

- (a) place or cause to be placed on the nature strip or footpath no more than the number of waste or recycling receptacles approved for use at the land;
- (b) ensure that the Approved Receptacle is placed on the nature strip or footpath no earlier than 3.00 pm on the day prior to the day Waste is collected and no later than 4.00 am on the day after Waste is collected.

The owner, occupier and person in charge of land must not, without a Permit, allow a waste receptacle to remain on a Road:

- (a) after the day of collection;
- (b) before 3.00 pm on the day before collection; and
- (c) (for commercial or trade waste collection) after collection or immediately upon arrival at the land of the operator or a staff member of the business, but no later than 24 hours after collection.

A waste receptacle must not be removed from the land or placed on a Road unless in accordance with:

- (a) the Local Law;
- (b) a Permit; or
- (c) any other legislation.

Recyclable Material must be placed in the Approved Receptacle and left for collection in the manner prescribed by Council.

#### Approved Receptacles Supplied by Council

- (1) An Approved Receptacle which has been supplied by Council must not be taken from land to which it has been assigned by Council unless the person has the written consent of Council or an Authorised Officer.
- (2) A person must not:
  - (a) place or allow to be placed any hot materials or other material in an Approved Receptacle; or
  - (b) place or allow to be placed an Approved Receptacle on a Road which causes damage to the Approved Receptacle.
- (3) A person who damages an Approved Receptacle is liable for, and must pay to Council, the cost of repairing or replacing the Approved Receptacle.
- (4) The owner and occupier of any land to which an Approved Receptacle has been supplied by Council is liable for the cost of replacing it in the event of it being damaged, destroyed, lost, stolen or missing (except where it is stolen and the theft has been reported promptly to a member of the Police Force and a statutory declaration to that effect is provided to Council).

#### Trade Waste Bins and Hoppers

The owner and occupier of land on which a waste receptacle used for the collection and storage of Industrial Waste must:

- (a) construct on the land an area for the storage of the waste receptacles which is supplied with reticulated water so that the waste receptacle can be adequately cleaned; and
- (b) ensure that the area constructed is screened from view, maintained in a clean and sanitary condition and fenced in such a manner to deny access to the public.

#### Household Waste Collection and Storage

An approved waste receptacle on private land must:

- (a) be placed so that it does not detrimentally affect the surrounding area by its presence, appearance or odour; and
- (b) not be placed so that it creates an obstruction or other safety related issue.

### Storage of Trade Waste

All trade waste hoppers must:

- (a) be kept in a clean and sanitary condition at all times;
- (b) be kept free of graffiti;
- (c) be maintained in a condition fit for its purpose;
- (d) be replaced if damaged;
- (e) be kept in a manner to ensure easy movement and not to damage Council assets; and
- (f) clearly identify the owner of the Hopper.

## **Part 17 - Permits**

### Asset Protection Permits

Asset Protection Permit Bonds are determined by Council from time to time.

Where, in the opinion of an Authorised Officer, an existing driveway crossing, footpath, road, street tree, kerb or other part of Council's asset may be damaged, the person responsible for the building work must pay to Council a bond, or provide a bank guarantee or other security acceptable to Council.

The amount of the bond, bank guarantee or other security to be provided will be determined during the assessment of the application and will be proportionate to the likely cost of repairing any damage to Council assets. The amount (if a bond), or bank guarantee must be provided to Council before the permit is issued.

If, after issuing a permit, with or without the requirement of a bond, guarantee or other security, further information is received and an Authorised Officer is of the opinion that damage or further damage may occur, the person responsible must pay to Council a bond, bank guarantee or other security or further bond, bank guarantee or other security.

The security will be refunded after the final inspection of Council assets if there has not been any damage to Council's assets as a result of the building works. If damage to Council's assets has occurred, the security will be retained by the Council to offset the cost of repairing any damage.

### Hoarding, Scaffolding and Overhead Protective Awning

Council prefers the use of creative graphics on temporary structures on, or within, public space and on, or within, private land in the municipality.

Applying creative graphic treatments on protective structures, hoardings and scaffolding at construction sites across the municipality increases:

- creativity in our streetscapes; and
- reduces the detriment to the amenity of the municipality as a result of hoardings and scaffolding.

Creative graphics include the following:

- art works;
- historical pictures;
- advertising of the proposed development on the land; and
- other treatment other than plain hoarding.

The installation of creative graphics on hoardings is mandatory depending on certain circumstances such as the location, duration of installation and proximity to major transport corridors. They are required to minimise adverse visual impacts of work sites and hoardings, and to increase the presence of creativity in our streetscapes. It is mandatory to have a creative graphic for the following:

(a) *Specific locations:*

- (i) Toorak Road;
- (ii) Malvern Road;
- (iii) High Street; and
- (iv) Chapel Street.

(b) *Duration:*

- (i) any hoarding, temporary structure, scaffolding or other protective structure required to be erected for a period of 4 months or more.

In all other circumstances, if chain wire temporary fencing is to be used, it must be screened with an appropriate mesh which screens the temporary fence so that a person cannot see into the land.

Council requires hoardings, temporary structure, scaffolding or other protective structure to meet the following requirements:

*Hoardings*

Hoarding fences must be kept free of graffiti and bill posters, and the structural frame must be kept clean, tidy and in good condition, to the satisfaction of Council.

Graffiti and bill posters must be removed within 24 hours of being placed on hoarding fences and, where the surface has been damaged, the hoarding fence repaired and re-painted. In the case of damage to graphics, damaged sections must be replaced. General wear-and-tear on hoarding fences and the hoarding structure will require periodic repair and/or re-painting throughout the duration of its erection.

*Screening systems and graphics*

Screening systems and/or graphics or images on hoardings and scaffolding must be fully and properly maintained for the full duration that a temporary structure is in place including keeping:

- (a) the screening mesh or fabric taut to minimise the adverse effects of wind on the structure and being visually pleasing; and
- (b) screening systems being maintained in good condition to maintain an acceptable and quality appearance in the streetscape.

#### *Scaffolding - Graphics and images (construction/scaffolding wraps)*

The whole scaffolding face, or a lesser area where specifically approved by Council, must display a coordinated and integrated graphic display that can include façade replication, community images, historical municipal images or public art to mitigate the adverse visual impacts on the public place and add visual interest and vibrancy in the streetscape. The Council must give approval to a proposed artwork or graphic display.

Printing of graphic displays must use UV-stabilised or latex-based inks. The system of installation and attachment of graphic displays to temporary structures must consider the long-term durability, appearance and maintenance requirements to ensure that an acceptable quality appearance is provided and maintained.

#### Internal Review

An applicant for a Permit may request a review of Council's decision in relation to the refusal to grant a Permit.

An application for review must be:

- (a) In writing;
- (b) Within 28 days of the date of the decision;
- (c) State the reasons for the internal review; and
- (d) Any additional information relevant to the grant of the Permit that was not previously provided.

An application for review must be considered by an Authorised Officer that was not previously involved in the decision to refuse to grant the Permit.

Upon the carrying out of the internal review, the Authorised Officer must:

- (a) Notify the applicant in writing of the decision of the internal review; and
- (b) Within 90 days of the decision of the internal review.
